**REMARKS**

During a review of this application file while preparing a response to an outstanding Office Action in the present application, and pursuant to discussions with representatives of the current assignee of record (Color Kinetics, Inc.), the undersigned noted that the priority claim references listed in the "Cross Reference to Related Applications" section of the application as filed were incomplete. In particular, a number of non-provisional and provisional applications to which the listed references similarly are entitled a benefit were omitted inadvertently from the listed references. Accordingly, in this Substitute Amendment, these inadvertently omitted references now are included in the priority claim.

Prior to the filing of this Substitute Amendment, Applicants previously filed on October 8, 2002 with the Office of Petitions a Petition Under 37 CFR 1.78(a)(3) for Acceptance of an Unintentionally Delayed Claim for Priority Under 35 U.S.C. §120, an Amendment, the required surcharge, and a statement that the entire delay between the date the claim was due and the date the claim was filed was unintentional. A notice dated February 25, 2003 from the Office of Petitions dismissed the Petition for alleged inadequacies in the priority claim as presented in the Preliminary Amendment. Following a subsequent telephone conversation with Lead Petitions Examiner Frances Hicks, Applicants submit this Substitute Amendment to replace the originally filed Amendment accompanying the Petition. In this substitute amendment, Applicants have adopted Examiner Hicks' suggestions to address the issues noted with the priority claim.

Favorable consideration is requested.

Respectfully submitted  
*Kevin Dowling, et al., Applicants*
